

Discoveryland News

Happy July! Boy have we had some HOT sunny days lately! We are glad our summer program has started and have done some fun things already. Motion in the ocean found us outside feeding sharks fish, geeting face painted with all kinds of sea creatures, tasting seaweed, and exploring real fresh fish from the store. They were fascinated to feel it, smell it, and pull on the fins to see how they move. Good job Teachers! The kids are doing some great learning here.

The summer will find us playing with water a lot. Please rember to send a towel and extra clothing and shoes with your child. This will be helpful for us when we need to dry off and get changed. Be sure to label all items with your child’s name. In addition, just a reminder that we cannot apply sunblock to your child. If you would like to do so in the morning when you drop them off, you are welcome to.

We have fun things going on at Foothill Adventist School, our sister school. Check the front office or at Foothill website to see what is available.

This Fourth of July, please remember how lucky we are to be free. The things we are able to do here make me proud to represent America. I may not agree with how some things are being done here, but because I live here, I am able to have my voice be heard and work to make it a better place for me and you. Please enjoy this time with your families and be safe.

School will be CLOSED on July 3rd and July 4th. Enjoy!

Please remember our new rates begin this month. We are also going to be revising some policies so keep an eye out for that soon.

The list for FUN days for this month is posted on the doors and listed here. Get ready for lots of FUN, FUN, FUN!!!

- July
- 4-7 Land of the Free
- 10-14 Water Play
- 17-21 Space Adventures
- 24-28 Ocean Creatures

- August
- 1-4 Hawaiian Week

Is...

- **Blueberry Month:** Blueberries are one of the best foods to eat! They are high in antioxidants and may help protect you against a variety of diseases.
- **National Picnic Month:** Plan safe picnics. Always keep hot food **HOT** and cold food **COLD!**

Water

Water is one of our planet's most precious resources and our body's most important nutrient. When it's hot or you're active, you need more water. Put a pitcher of water in your fridge. Add fruit or veggie slices.

Never leave a baby or child alone or near a pool, bathtub, drainage area or open toilet. Use the water you cooked your veggies in to water your plants. Turn off the faucet when you are brushing your teeth. Limit the length of your showers.

Collect rain water, if allowed.

Drink up!!
